PROFESSIONAL SUMMARY

Computer Engineering student specializing in Software Engineering with strong knowledge of Java, OOP, Data Structures, and full-stack development. Experienced in building MERN and AI-powered applications using React.js, Node.js, Express.js, MongoDB, and Google Gemini AI. Interested in software development and building practical real-world applications.

EDUCATION

Vishwakarma Institute of Information Technology **Jan 2024 – Jun 2027**
B.Tech in Computer Engineering (Software Engineering) – ***CGPA: 8.79*** *Pune, India*

Purnmal Lahoti Government Polytechnic, Latur **Oct 2021 – Jun 2024**
Diploma in Information Technology – ***Percentage: 87.88%*** *Latur, India*

COURSEWORK

- Data Structures & Algorithms
- Object-Oriented Programming
- Database Management Systems
- Operating Systems
- Backend Development
- Web Development

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL

Frameworks Technologies: React.js, Node.js, Express.js, FastAPI, MERN Stack, REST APIs, JWT Authentication, Tailwind CSS

AI Tools: Google Gemini AI, RAG, FAISS, OpenAI APIs, Postman, Git, GitHub, VS Code

Databases: MongoDB, MySQL

PROJECTS

Interview AI | GitHub | Live Demo | MERN Stack, Gemini AI, Puppeteer, AWS EC2 **July 2026**

- Built and deployed an AI-powered interview preparation platform that analyzes resumes and job descriptions to generate personalized interview reports.
- Integrated Gemini AI to generate technical and behavioral questions, perform skill-gap analysis, calculate job-match scores, and create personalized preparation plans.
- Implemented JWT authentication, resume uploads, MongoDB persistence, REST APIs, and automated PDF report generation using Puppeteer.
- Deployed the full-stack application on AWS EC2 and configured the production environment for live access.

QueryNest GitHub | MERN Stack, Python, FastAPI, RAG, FAISS, Gemini AI **September 2026**

- Built an AI-based document QA platform that allows users to upload documents and ask questions about them.
- Used Python, FastAPI, FAISS, and Gemini AI to find relevant information from documents and generate answers.
- Added user login, document upload, chat history, previous conversations, and source citations using MongoDB and REST APIs.

CERTIFICATIONS AND ACHIEVEMENTS

[1] Certificate of Merit – Web Development

[2] Full Stack Development – Angela Yu
